

~~CONFIDENTIAL~~

Suggested changes in the minutes of the 20th meeting of Subcommittee III

1. On page 4 directly after the first two lines of para 6, insert:

25X1A9a

██████████ objected, stating his belief that meaningful recommendations could not be drafted unless both Items A-1 and A-2 were explored in far more detail. Specifically, he requested that Item A-1 be reconsidered before proceeding further for the purpose of drafting a statement of the "Exploitation Services Required" which would represent a consensus.

2. Top of page 5 strike out the first para and insert:

Reverting to an earlier point, ██████████ suggested the Chairman designate a small task force to draft an agreed upon statement of the detailed features of Item I, the task force to be composed of those most concerned with the end use of the material to come from the exploitation service.

3. In the next para change "collectors" to "primary exploiters"

4. Delete the next para beginning ██████████ suggested that he and...". Add the following:

25X1A9a

25X1A9a

██████████ moved that, in view of the chairman's statement, the committee as a whole draft an agreed-upon statement of the detailed features of Item A-1 as the first order of business at the next meeting. No action was taken.
